No comment

Do you support requiring older operations at EPA licensed industrial premises to meet the more stringent emission standards that apply to newer activities and plant?

neither support or oppose

Do you support the transition period (by 2025 to 2030) for these older

activities and plant to meet more stringent emission limits?

neither support or oppose

Do you support expanding the geographic area in which controls apply for the storage and transfer of volatile organic liquids to include the greater Newcastle and Wollongong metropolitan areas, so they are included in the area that requires petrol vapours to be captured during transfer of petrol between underground storage tanks and road tankers (the stage one zone in the Clean Air Regulation)?

neither support or oppose

Do you support the proposed new tightened emission limits and control requirements for all volatile organic liquid storage tanks, loading plant and tank vehicles regardless of age?

neither support or oppose

Do you have any other comments on the remake of the Clean Air Regulation?

The definition of a VOC is inconsistent with the definition used in the National Pollutant Inventory and by other jurisdictions around Australia. This increases the complexity of reporting and showing compliance.
