[BULK] Take the Survey Form Submission

There has been a submission of the form Take the Survey through your NSW Environment Protection Authority website.

Name

David Pedersen

Organisation or business name

individual

Position (job title)

Student

email address

[REDACTED]

Which stakeholder group best describes you?

General public

Do you support extending the summer petrol volatility period from 15 November - 15 March to 1 November - 31 March?

strongly support

Comments

I strongly support this proposal. Evaporative emissions and their contribution to smog are a huge problem that need to be addressed from all possible angles, including this one.

Do you support requiring older operations at EPA licensed industrial premises to meet the more stringent emission standards that apply to newer activities and plant?

strongly support

Comments

Yes. It's important to level the playing field but also make sure that we achieve reductions in emissions as quickly as possible rather than waiting for plants to be retired or replaced.

Do you support the transition period (by 2025 to 2030) for these older activities and plant to meet more stringent emission limits?

strongly support

Do you support expanding the geographic area in which controls apply for the storage and transfer of volatile organic liquids to include the greater Newcastle and Wollongong metropolitan areas, so they are included in the area that requires petrol vapours to be captured during transfer of petrol between underground storage tanks and road tankers (the stage one zone in the Clean Air Regulation)?

strongly support

Do you support the proposed new tightened emission limits and control requirements for all volatile organic liquid storage tanks, loading plant and tank vehicles regardless of age?

strongly support

Do councils wish to amend their listings in Part 1, 2 and 3 of Schedule 1 to provide different levels of control of burning of vegetation and domestic waste in their local government areas?

I'm not sure, but I would suggest that they do.

What do you think are the most important sources of air pollution to address in Sydney?

Wood smoke and diesel exhaust. No doubt about it.

What do you think are the most important sources of air pollution to address in Newcastle?

Wood smoke and diesel exhaust. No doubt about it.

What do you think are the most important sources of air pollution to address in Wollongong?

Wood smoke and diesel exhaust. No doubt about it.

What do you think are the most important sources of air pollution to address in the Greater Metropolitan Region?

Wood smoke and diesel exhaust. No doubt about it.
